

Coding a Lego Zoo

Code. Test. Drive.

**Code a robot, test it,
and make it work better.**

1

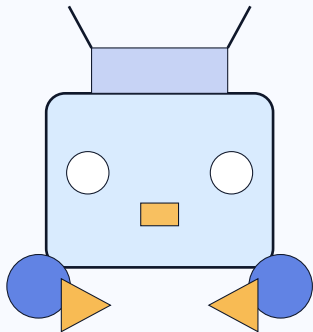

Code it

2

Test it

3

Tune it

Today's Mission

Our focus

Use code to move and control a robot.

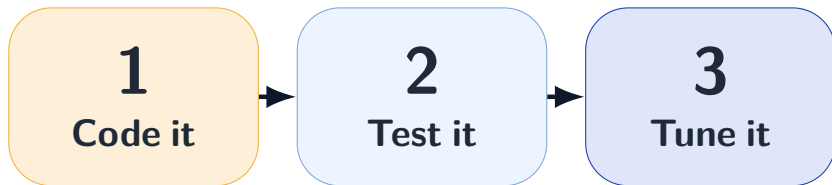

- ▶ I can finish my work.
- ▶ I can show one smart choice I made.
- ▶ I can share my work with a screenshot, demo, or quick talk.

Grade 1

Code a robot,
test it, and make
it work better.

Keep the next
step visible and
keep trying.

How We Will Move Through It

What to keep in front of you

- ▶ Watch the first step.
- ▶ Use the checklist or example.
- ▶ Pause, check, and keep going.

If You Get Stuck

Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

If directions feel tricky,
check the example.

Look for the success
check on the slide.

If it fails, test one
small change next.

Show What You Learned

I can finish my work.

I can show one smart choice I made.

**I can share my work with a
screenshot, demo, or quick talk.**

Finish strong

Save it, share it, explain it, or demonstrate it.
