

My First Experience with Coding

Plan. Code. Debug.

**Use code steps to
make something
happen on purpose.**

1

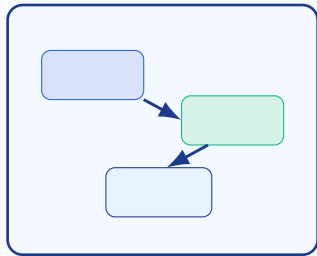

Plan it

2

Code it

3

Debug it

Today's Mission

Our focus

Use code steps to make something happen on purpose.

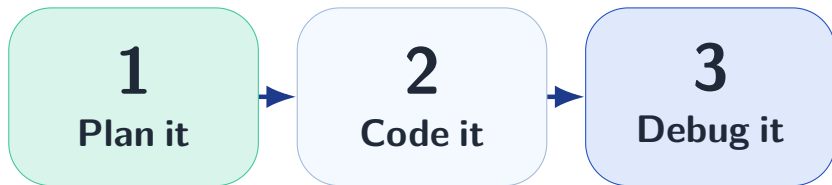

- ▶ I can finish my work.
- ▶ I can show one smart choice I made.
- ▶ I can share my work with a screenshot, demo, or quick talk.

Grade 1

Use code steps to make something happen on purpose.

Keep the next step visible and keep trying.

How We Will Move Through It

What to keep in front of you

- ▶ Watch the first step.
- ▶ Use the checklist or example.
- ▶ Pause, check, and keep going.

If You Get Stuck

Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

If directions feel tricky,
check the example.

Look for the success
check on the slide.

Debugging is part
of the learning.

Show What You Learned

I can finish my work.

I can show one smart choice I made.

**I can share my work with a
screenshot, demo, or quick talk.**

Finish strong

Save it, share it, explain it, or demonstrate it.
