

Tech Troubleshooting Team: Finalizing & sharing out product

Notice. Think. Choose.

**Notice the problem,
think it through, and
make a smart choice.**

1

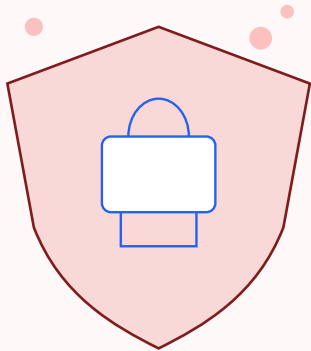

Spot it

2

Think it
through

3

Choose safely

Today's Mission

Our focus

Notice a digital safety problem and make a smart choice.

- ▶ I can finish my work.
- ▶ I can show one smart choice I made.
- ▶ I can share my work with a screenshot, demo, or quick talk.

Grade 2

Notice the problem, think it through, and make a smart choice.

Keep the next step visible and keep trying.

How We Will Move Through It

What to keep in front of you

- ▶ Watch the first step.
- ▶ Use the checklist or example.
- ▶ Pause, check, and keep going.

If You Get Stuck

Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

If directions feel tricky,
check the example.

Look for the success
check on the slide.

Safe choices should
be easy to explain.

Show What You Learned

I can finish my work.

I can show one smart choice I made.

**I can share my work with a
screenshot, demo, or quick talk.**

Finish strong

Save it, share it, explain it, or demonstrate it.
