

# MineCraft: Cyber Safe Good Game

Build. Code. Test.

**Build and code  
your way through a  
Minecraft challenge.**

**1**

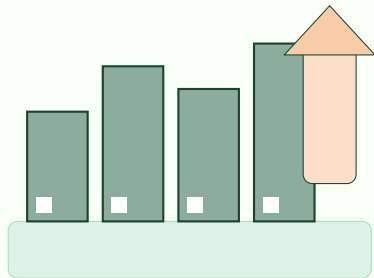

Build it

**2**

Code it

**3**

Test it

# Today's Mission

## Our focus

Use Minecraft code to solve a build challenge.

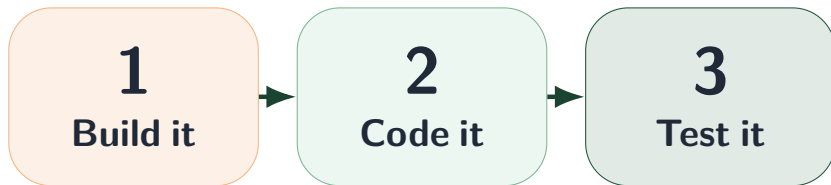

- ▶ I can finish my work.
- ▶ I can show one smart choice I made.
- ▶ I can share my work with a screenshot, demo, or quick talk.

### Grade 3

Build and code  
your way through a  
Minecraft challenge.

Keep the next  
step visible and  
keep trying.

# How We Will Move Through It

## What to keep in front of you

- ▶ Watch the first step.
- ▶ Use the checklist or example.
- ▶ Pause, check, and keep going.

# If You Get Stuck

## Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

Sign-in or menu

navigation can block  
learning before

coding even starts.  
Skipping direc-

tions can make the  
next step harder.

A tiny test is better  
than a giant guess.

## Show What You Learned

**I can finish my work.**

**I can show one smart choice I made.**

**I can share my work with a  
screenshot, demo, or quick talk.**

Finish strong

Save it, share it, explain it, or demonstrate it.
