

# Business Plan Day 5: Tinkercad Building Desing

Plan. Code. Debug.

**Use code steps to  
make something  
happen on purpose.**

**1**

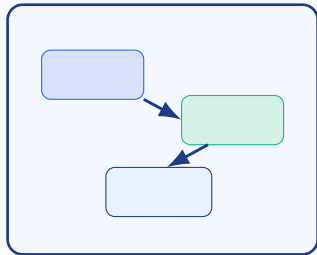

Plan it

**2**

Code it

**3**

Debug it

# Today's Mission

## Our focus

Use code steps to make something happen on purpose.

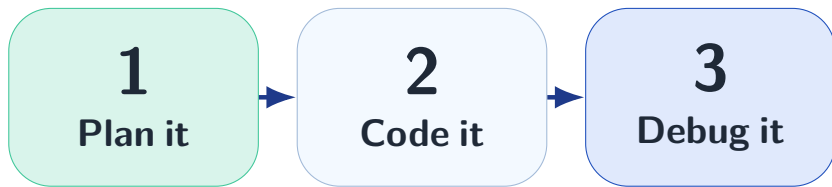

- ▶ I can finish my work.
- ▶ I can show one smart choice I made.
- ▶ I can share my work with a screenshot, demo, or quick talk.

### Grade 5

Use code steps to make something happen on purpose.

Keep the next step visible and keep trying.

# How We Will Move Through It

## What to keep in front of you

- ▶ Watch the first step.
- ▶ Use the checklist or example.
- ▶ Pause, check, and keep going.

# If You Get Stuck

## Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

Some groups need

support organizing  
materials and stick-

ing with one plan  
Explaining the design

can be harder than mak-  
ing it without sentence

Debugging is part  
of the learning.

## Show What You Learned

**I can finish my work.**

**I can show one smart choice I made.**

**I can share my work with a  
screenshot, demo, or quick talk.**

Finish strong

Save it, share it, explain it, or demonstrate it.
