

Hardware Troubleshooting

Try. Check. Fix.

Use the tool carefully and solve one tech problem.

1

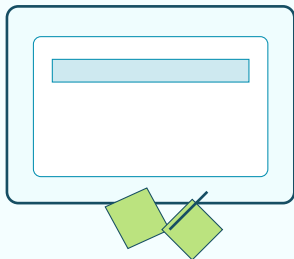

Try it

2

Check it

3

Fix it

Today's Mission

Our focus

Use technology tools carefully and solve simple problems.

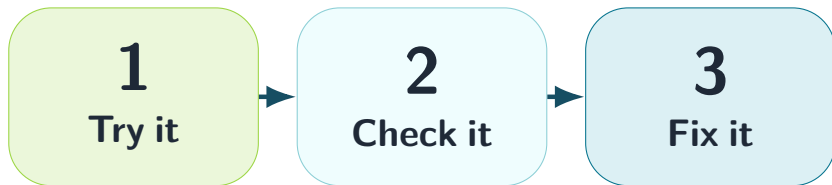

- ▶ I can finish my work.
- ▶ I can show one smart choice I made.
- ▶ I can share my work with a screenshot, demo, or quick talk.

Kindergarten

Use the tool carefully
and solve one
tech problem.

Keep the next
step visible and
keep trying.

How We Will Move Through It

What to keep in front of you

- ▶ Watch the first step.
- ▶ Use the checklist or example.
- ▶ Pause, check, and keep going.

If You Get Stuck

Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

If directions feel tricky,
check the example.

Look for the success
check on the slide.

Slow, clear steps
beat rushing.

Show What You Learned

I can finish my work.

I can show one smart choice I made.

**I can share my work with a
screenshot, demo, or quick talk.**

Finish strong

Save it, share it, explain it, or demonstrate it.
