

# Grade 2 - Day 4

## Community Project

Plan. Make. Share.

Use code steps to  
make something  
happen on purpose.

1

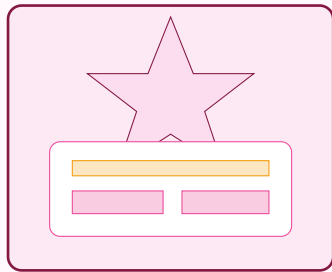

Plan it

2

Make it

3

Share it

# Today's Mission

## Our focus

Finish a project and get ready to share your work.

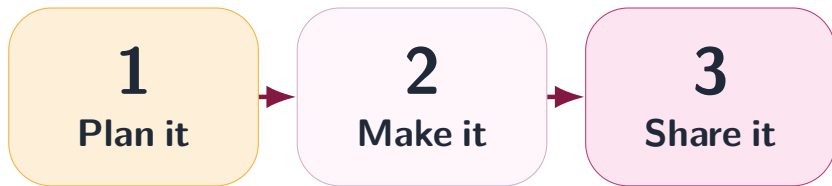

- ▶ Student completes the core task or an accessible version
- ▶ Student can explain at least one step, pattern, choice,
- ▶ Teacher captures one proof item: screenshot, observation note, exit

### Grade 2

Use code steps to make something happen on purpose.

Keep the next step visible and keep trying.

# How We Will Move Through It

## What to keep in front of you

- ▶ Model the first step before independent or partner work starts.
- ▶ Keep one visible checklist, anchor chart, or projected example available throughout
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset point.

# If You Get Stuck

## Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

Hidden assumptions in  
the directions can make  
support requests pile up

Without a visible suc-  
cess cue, students may  
not know when they

We can share even if the  
project is still growing.

## Show What You Learned

**Student completes the core task or an accessible version**

**Student can explain at least one step, pattern, choice,**

**Teacher captures one proof item: screenshot, observation note, exit**

Finish strong

Save it, share it, explain it, or demonstrate it.
