

Minecraft Project Presentation

Plan. Make. Share.

**Finish your project and
get ready to share it.**

1

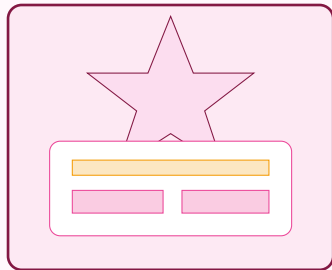

Plan it

2

Make it

3

Share it

Today's Mission

Our focus

Finish a project and get ready to share your work.

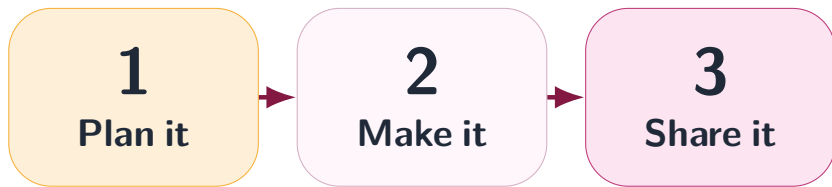

- ▶ Student completes the core task or an accessible version
- ▶ Student can explain at least one step, pattern, choice,
- ▶ Teacher captures one proof item: screenshot, observation note, exit

Grade 4

Finish your project
and get ready
to share it.

Keep the next
step visible and
keep trying.

How We Will Move Through It

What to keep in front of you

- ▶ Model the first step before independent or partner work starts.
- ▶ Keep one visible checklist, anchor chart, or projected example available throughout
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset point.

If You Get Stuck

Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

Sign-in or menu

navigation can block
learning before

coding even starts.

A visible example
helps us stay on track.

We can share even if the
project is still growing.

Show What You Learned

Student completes the core task or an accessible version

Student can explain at least one step, pattern, choice,

Teacher captures one proof item: screenshot, observation note, exit

Finish strong

Save it, share it, explain it, or demonstrate it.
