

Don't Go Phishing with the Enemy

Notice. Think. Choose.

**Notice the problem,
think it through, and
make a smart choice.**

1

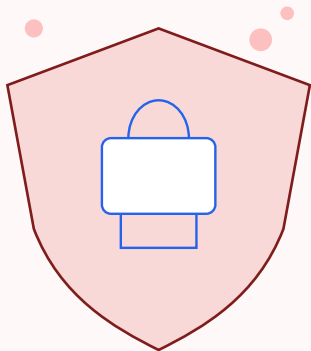

Spot it

2

Think it
through

3

Choose safely

Today's Mission

Our focus

Notice a digital safety problem and make a smart choice.

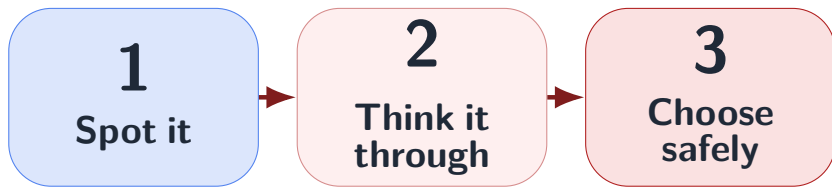

- ▶ Student completes the core task or an accessible version
- ▶ Student can explain at least one step, pattern, choice,
- ▶ Teacher captures one proof item: screenshot, observation note, exit

Grade 5

Notice the problem, think it through, and make a smart choice.

Keep the next step visible and keep trying.

How We Will Move Through It

What to keep in front of you

- ▶ Model the first step before independent or partner work starts.
- ▶ Keep one visible checklist, anchor chart, or projected example available throughout
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset point.

If You Get Stuck

Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

Hidden assumptions in the directions can make support requests pile up
Without a visible success cue, students may not know when they

Safe choices should be easy to explain.

Show What You Learned

Student completes the core task or an accessible version

Student can explain at least one step, pattern, choice,

Teacher captures one proof item: screenshot, observation note, exit

Finish strong

Save it, share it, explain it, or demonstrate it.
