

Technology in the Workplace

Explore. Compare. Explain.

**See how technology helps
real people in real jobs.**

1

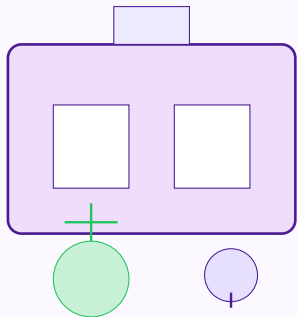

Notice it

2

Compare it

3

Explain it

Today's Mission

Our focus

Connect technology skills to real jobs and people.

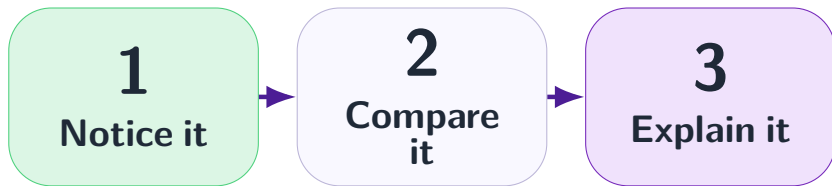

- ▶ Student completes the core task or an accessible version
- ▶ Student can explain at least one step, pattern, choice,
- ▶ Teacher captures one proof item: screenshot, observation note, exit

Kindergarten

See how technology helps real people in real jobs.

Keep the next step visible and keep trying.

How We Will Move Through It

What to keep in front of you

- ▶ Model the first step before independent or partner work starts.
- ▶ Keep one visible checklist, anchor chart, or projected example available throughout
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset point.

If You Get Stuck

Use this help ladder

1. Look at the slide.
2. Try one small step.
3. Ask your partner.
4. Ask one clear question.

Too many examples
at once can blur
the core message.

A tool matters
because of what it
helps people do.

Clear comparisons
help ideas stick.

Show What You Learned

Student completes the core task or an accessible version

Student can explain at least one step, pattern, choice,

Teacher captures one proof item: screenshot, observation note, exit

Finish strong

Save it, share it, explain it, or demonstrate it.
