

LEGO Game and Conflict Resolution

Piter Garcia

March 20, 2026

Grade and Class Match

Grade: Grade 1

Likely blocks: Day 3 · 12:25-1:15 · Gargana; Day 3 · 2:15-3:05 · Polfleit; Day 5 · 12:25-1:15 · Montgomery

Lesson Focus

Partner play, turn-taking, and problem solving during a hands-on build game.

Learning Targets

- Students follow basic partner and turn-taking expectations.
- Students participate in a shared hands-on challenge.
- Students reflect on how their group solved a conflict or problem.

Materials

- LEGO or similar build materials
- Visual directions
- Reflection prompt

Suggested Lesson Flow

1. Open with the exact device, tool, or routine students need in order to start successfully.
2. Model one example task before students begin independent or partner work.
3. Give students time to build, code, design, or document their work while circulating for support.
4. Close with a short share-out, reflection, or debugging discussion.
