

Foundational Coding and Directional Loops

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 1
- Packet focus: directional sequencing, early loops, and physical-to-digital coding transfer
- Class blocks: Day 3 12:25-1:15 Gargana, Day 3 2:15-3:05 Polfleit, Day 5 12:25-1:15 Montgomery
- Reference file: foundational-coding-and-directional-loops.bib

School Planning Goals and Inclusion

- What is expected: make the CS learning target, proof, and revision path visible.
- What we achieved: This packet is grounded in local evidence notes and cleaned transcripts from real teaching sessions.
- What needs improvement: clearer proof, sharper assessment, and fewer hidden assumptions in directions.
- How to improve: keep one artifact, one observation, and one revision note after reteaching.
- Inclusion focus: visual modeling, chunked directions, role clarity, and flexible pacing supports.
