

Getting Around Town, Day 1

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 2
- Workbook sessions: Session 30
- Class blocks: Day 1 10:45-11:35 Callon, Day 1 2:15-3:05 Hennen, Day 4 10:45-11:35 Barthelman
- Reference file: getting-around-town-day-1.bib

School Planning Goals and Inclusion

- What is expected: I can give clear directions, using transitions words to get Indi from one place to another in the community. | | I can write my directions out and create a coding card for my algorithm. | | I can test my algorithm to find and fix errors in my algorithm. | | I can create two different algorithms to get Indi from place to place in the community.
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
