

Indi: Inputs Outputs

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 2
- Workbook sessions: Session 27
- Class blocks: Day 1 10:45-11:35 Callon, Day 1 2:15-3:05 Henchen, Day 4 10:45-11:35 Barthelman
- Reference file: indi-inputs-and-outputs.bib

School Planning Goals and Inclusion

- What is expected: I can demonstrate how Indi functions using inputs (color tiles) and output (travels in different directions. | | I can create two or more algorithms (paths) to get Indi to a location
- What we achieved: This lesson points to local transcript or evidence files in the workspace so the packet can be revised from what actually happened in class.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
