

Block Coding with Bees

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 3
- Packet focus: block coding, loops, and constraint-based planning in unplugged group tasks
- Class blocks: Day 3 9:50-10:40 Lamanaco, Day 4 9:50-10:40 Lallucci, Day 5 9:50-10:40 Regelsberger, Day 5 2:15-3:05 Tandoi
- Reference file: block-coding-with-bees.bib

School Planning Goals and Inclusion

- What is expected: make the CS learning target, proof, and revision path visible.
- What we achieved: This packet is currently workbook-backed and should be enriched with classroom evidence as it becomes available.
- What needs improvement: clearer proof, sharper assessment, and fewer hidden assumptions in directions.
- How to improve: keep one artifact, one observation, and one revision note after reteaching.
- Inclusion focus: visual modeling, chunked directions, role clarity, and flexible pacing supports.
