## School Planning Goals and Inclusion

- What is expected: I can develop a survey to collect data. | I can organize and record data accurately. | I can create different types of graphs or charts to represent data. | I can include titles and labels to make my graphs easy to understand. | I can use multiple visual formats to tell a story about the data I collected.
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
