School Planning Goals and Inclusion

- What is expected: - I can type on a keyboard while demonstrating proper keyboarding technique | - I can select appropriate digital tools to communicate and collaborate with others | - I can locate relevant information when searching online by refining my search terms | - I can identify common features of digital technologies
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
