School Planning Goals and Inclusion

- What is expected: - I can select the tool that best helps me communicate and collaborate with others based on my task/purpose. | - I can note common features among different digital technology tools. | - I can reason about when to keep information private and when to share information.
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
