

3D Design in Tinkercad, Introductory Lesson. Design your own Minecraft Bobblehead

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 5
- Workbook sessions: Session 21
- Class blocks: Day 2 10:45-11:35 Pickett, Day 3 10:45-11:35 McGlashon, Day 5 10:45-11:35 Pecora
- Reference file: 3d-design-in-tinkercad-introductory-lesson-design-your-own-minecraft-bob.bib

School Planning Goals and Inclusion

- What is expected: I can describe the steps taken and choices made to design and develop a Bobblehead (4-6.CT.10) | I can decompose a problem into smaller named tasks (4-6.CT.4)
- What we achieved: This lesson points to local transcript or evidence files in the workspace so the packet can be revised from what actually happened in class.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
