

Lego Spike Protect the Environment

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 5
- Workbook sessions: Session 16
- Class blocks: Day 2 10:45-11:35 Pickett, Day 3 10:45-11:35 McGlashon, Day 5 10:45-11:35 Pecora
- Reference file: lego-spike-protect-the-environment.bib

School Planning Goals and Inclusion

- What is expected: I can explain how an object's speed is related to its energy, using evidence. | I can create explain how to protect the environment | I can iterate and test my models to improve them.
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
