

Robot Logic and Conditional Coding

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 5
- Packet focus: conditional logic, robotics testing, and applied debugging
- Class blocks: Day 2 10:45-11:35 Pickett, Day 3 10:45-11:35 McGlashon, Day 5 10:45-11:35 Pecora
- Reference file: robot-logic-and-conditional-coding.bib

School Planning Goals and Inclusion

- What is expected: make the CS learning target, proof, and revision path visible.
- What we achieved: This packet is grounded in local evidence notes and cleaned transcripts from real teaching sessions.
- What needs improvement: clearer proof, sharper assessment, and fewer hidden assumptions in directions.
- How to improve: keep one artifact, one observation, and one revision note after reteaching.
- Inclusion focus: visual modeling, chunked directions, role clarity, and flexible pacing supports.
