

# STEM Challenge Lesson or FLEX Day as needed

Piter Garcia

March 20, 2026

## Quick Scan

- Grade: Kindergarten
- Workbook sessions: Session 6
- Class blocks: Day 1 12:25-1:15 Justinger, Day 2 12:25-1:15 Kesys, Day 4 12:25-1:15 Pum
- Reference file: stem-challenge-lesson-or-flex-day-as-needed.bib

## School Planning Goals and Inclusion

- What is expected: I can rethink my ideas to improve my design | I can work with a partner | I can communicate my ideas | I can compromise or try my partners ideas | I can be supportive of my partner by collaborating with their design ideas. | I can sense my feelings and manage my feelings as I work
- What we achieved: This lesson points to local transcript or evidence files in the workspace so the packet can be revised from what actually happened in class.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
