School Planning Goals and Inclusion

- What is expected: We can collect data about material choices (K-1.CT.2) | We can create a visual chart of the data we collect (K-1.CT.3) | I can build my name by breaking the task down into smaller parts (K-1.CT.4)
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
