Friday placement itinerary

Friday, October 16, 2026 | Marketing vocabulary quiz, then Chapter 2 review Q1-3. Business blocks continue Word Part 4.

Regular bell times below are the established baseline. Check the live school/SBTE agenda for any Friday exception; the October 15 meeting explicitly planned these Friday lessons.

Time	What you will do
6:30 AM	Leave for Eastridge. Aim to arrive by 7:00 in room 115.
7:00-7:25	Check in with Pat. Confirm roles, print the vocabulary quizzes, locate the student review in Teams, and arrange the private make-up reminder. Check quiz accommodations and the collection process.
7:30-8:12	Block 1 - Marketing. Announce the full sequence before the quiz. Students turn in the quiz, then work quietly on Q1-3. See page 2.
8:17-9:53	Shared planning (homeroom 9:04-9:06). Record the Marketing stop and unfinished work. Prepare Word 4.6 support; check the later section's quiz and review access.
9:58-10:40	Block 4 - Business / Word. Target: complete 4.6, with work checked. Confirm actual unfinished work first.
11:32-12:14	Block 5C6A - Marketing. Same quiz-to-review sequence, adjusted for this section's actual needs and approved time.
12:18-12:44	Lunch.
12:49-1:31 PM	Block 7 - Business / Word. Catch up on 4.5 and 4.6; check completed work.
1:36-2:18	Co-op/check-in: debrief and purposeful planning as agreed. Confirm Monday's starting point for each section and the next Word task.
2:15 target	Coordinate departure with Pat; 2:30 is the established latest planning boundary. Resolve the handoff before leaving.

Have ready before the first class

Paper: printed quizzes, spare copies, writing supplies, and any approved make-up materials kept private.
Screen: posted agenda, Chapter 2 student review assignment, textbook and notes. Keep the teacher answer key off the projected screen.
Personal kit: charged laptop and reMarkable, pen and chargers. Open the core PDFs on the tablet before leaving home.

Terms to Know was due before the vocabulary quiz according to the October 15 recording. Check status privately; this guide does not change a due date or grading rule.

Marketing: quiz, then quiet review

Both Marketing sections | Friday uses the quiz-to-Q1-3 sequence. Slide 9 remains Monday's lesson.

Say the whole sequence before the quiz

Suggested wording: "Today you will take the Chapter 2 vocabulary quiz. Define each term and write a sentence that shows what it means. When you finish, turn in your quiz. Then open Teams, download Chapter 2 Review - Test Your Knowledge, and work quietly on questions 1, 2 and 3 while others finish."

Run the lesson without interrupting quiz takers

Opening: attendance, agenda and a quick check that everyone knows where the review is. Explain how and where to turn in the quiz.
Quiz: six definitions and six meaningful sentences. Allow the time students need and all approved accommodations; do not impose an invented 10- or 25-minute cutoff.
Individual transition: each finished student turns in the quiz and begins Q1-3 quietly. Avoid a classwide explanation or answer discussion while others are still testing.
Support: circulate quietly. Point students back to the question and source page. Keep make-up arrangements and individual needs private.
Close: check that quizzes are collected, record who needs approved follow-up, and note each section's review progress. Do not rush ongoing testing to force a whole-class recap.

Review Q1-3: exact source locations

Question / topic	Printed book	11-page Chapter 2 PDF
Q1: nature of marketing planning	p. 18	PDF p. 2
Q2: internal and external influences	p. 19	PDF p. 3
Q3: definition of a marketing plan	p. 18	PDF p. 2

The photographs are the **teacher answer key**, not the student review worksheet. Use the actual student assignment in Teams. In Block 1, its post is visible as released October 15 at 8:00 PM and due October 22. The later section's live assignment still needs checking.

If there is time after Q1-3

Follow Pat's agenda for any reading or catch-up. Do not assume a new reading assignment, reteach the completed PEST activity, or bring Monday's slide 9 lesson forward. Record the actual stop so Monday can begin cleanly.

Monday stays simple

Slide **9**; printed **pp. 20-23**, stopping before Market Research; Figure 2.2 on p. 21; review **Q4, Q5 and Q8**. Use weekly plan **v4** for the full October 19-23 sequence.

Word support and working with Pat

Business / Word Part 4

Friday targets from the October 15 meeting: Block 4 completes **4.6**; Block 7 catches up on **4.5 and 4.6**. Start by checking unfinished work. Have each completed lesson checked promptly before moving on. The recording identifies the test as **October 28**; confirm the next week's sequence with Pat after seeing Friday progress.

Table tools: click inside the table to reveal Table Design / Table Layout. Columns run vertically; rows run horizontally. Select the correct cell, row or table before editing.
Alignment: text position within a cell differs from the table's position on the page.
Save each lesson: preserve the completed source file before making changes for the next lesson. Follow the packet's save/copy directions and verify both lesson files remain.
When helping: ask for the instruction number, have the student show the issue, explain one step, and let the student perform it.

These are support cues from the October 13 lesson. They do not reproduce the missing 4.5/4.6 packet or establish its exact steps. Obtain the actual Part 4 instructions and starter files from Pat/the school source.

A concise check-in with your SBTE

Suggested wording: "I have Friday's sequence ready: vocabulary quiz, then quiet Q1-3. I can lead the opening and support the independent work. Can we confirm who handles quiz collection and the private make-up, and check the Word targets for Blocks 4 and 7? Please cue me if I need to shorten an explanation or hand over briefly."

Agree on roles and one discreet help cue before students arrive. Give one direction at a time; pause for students to act. Keep explanations brief and tied to the current task. Acknowledge Pat's additions calmly, then continue. Raise larger changes privately after the lesson. At debrief, report the exact stop, one difficulty and the proposed next step.

Your reMarkable filing map

Import pending: the new Start Here, Current week and Business folders below are intended destinations. Existing book, PEST and handwritten notebooks were verified. The app lost window access before new imports.

Placement / 00 Start Here: this Friday itinerary.
Exercises and Planning / Chapter 2 - Marketing Plan / Current week - October 19-23: weekly plan v4, Chapter 2 extract and private teacher key.
Exercises and Planning / PEST Analysis: current worksheet v3, student display v2 and run guide v2; earlier files are filed separately.
Exercises and Planning / Business - Word: available Word reference materials.
Book and References: full 407-page marketing textbook. Original Notes and Vocabulary notebooks remain at Placement root.

Final readiness check: open these documents on the physical tablet after syncing. Keep teacher answers private. Confirm access to the student review, the school slide deck and the actual Word Part 4 packet; a desktop import does not prove tablet offline sync.
