School Planning Goals and Inclusion

- What is expected: Chart Paper, markers or blank Google slides | Career and technology in specific career cards (Cards) | Images will need to be printed and cut out for each class | Send to print shop | At least a set for each group of kids
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
