

Flex Day - Complete Previous Assignments | Option: | STEM Wheels Challenges Lessons

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 2
- Workbook sessions: Session 8, Session 14, Session 28
- Class blocks: Day 1 10:45-11:35 Callon, Day 1 2:15-3:05 Hennen, Day 4 10:45-11:35 Barthelman
- Reference file: flex-day-complete-previous-assignments-option-stem-wheels-challenges-les.bib

School Planning Goals and Inclusion

- What is expected: "I can design and build a contraption that will meet the requirements of the assignment and fit in the required work area. | | I can rethink my ideas to improve my design. | | I can communicate my ideas. | | I can compromise or try my partners ideas. | | I can be supportive of my partner by collaborating with their design ideas. | | I can sense my feelings and manage my feelings as I work.
- What we achieved: This lesson points to local transcript or evidence files in the workspace so the packet can be revised from what actually happened in class.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
