School Planning Goals and Inclusion

- What is expected: I can give clear directions, using transitions words to get from one place to another. | | I can use details (from my partners directions) to perform a task. | | I can develop and document a plan to get Indi to a certain location.
- What we achieved: This lesson points to local transcript or evidence files in the workspace so the packet can be revised from what actually happened in class.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
