

Conductors vs. Insulators

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 3
- Workbook sessions: Session 20
- Class blocks: Day 3 9:50-10:40 Lamanaco, Day 4 9:50-10:40 Lallucci, Day 5 9:50-10:40 Regelsberger, Day 5 2:15-3:05 Tandoi
- Reference file: conductors-vs-insulators.bib

School Planning Goals and Inclusion

- What is expected: I can define conductor and insulator. | I can identify examples of conductors and insulators. | I can explain the difference between a conductor and an insulator in terms of electricity flow. | I can predict whether a given material is a conductor or insulator through experimentation.
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
