School Planning Goals and Inclusion

- What is expected: I understand why information should be kept private (2-3.CY.1) and know ways to keep my personal information safe (2-3.CY.2) | I understand what it means to be part of a digital community and how to keep it a safe and respectful place
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
