

Magic School | Day 2

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Grade 4
- Workbook sessions: Session 20
- Class blocks: Day 1 1:15-2:10 Baris, Day 2 1:15-2:10 Fowler, Day 3 1:15-2:10 Schrank, Day 4 1:15-2:10 Autore
- Reference file: magic-school-day-2.bib

School Planning Goals and Inclusion

- What is expected: - I can explain what MagicSchool is and why it's useful for learning. | - I can log into MagicSchool and find my way around the main areas. | - I can name at least three different types of activities available on MagicSchool. | - I can use MagicSchool safely and responsibly. | - I can share one way MagicSchool helps me learn better. | - I can model how computer hardware and software work together as a system to accomplish tasks. | - I can determine potential solutions to solve hardware and software problems using common troubleshooting strategies.
- What we achieved: This lesson points to local transcript or evidence files in the workspace so the packet can be revised from what actually happened in class.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
