School Planning Goals and Inclusion

- What is expected: make the CS learning target, proof, and revision path visible.
- What we achieved: This packet is grounded in local evidence notes and cleaned transcripts from real teaching sessions.
- What needs improvement: clearer proof, sharper assessment, and fewer hidden assumptions in directions.
- How to improve: keep one artifact, one observation, and one revision note after reteaching.
- Inclusion focus: visual modeling, chunked directions, role clarity, and flexible pacing supports.
