

Following an Algorithm K - What is an Algorithm

Piter Garcia

March 20, 2026

Quick Scan

- Grade: Kindergarten
- Workbook sessions: Session 16
- Class blocks: Day 1 12:25-1:15 Justinger, Day 2 12:25-1:15 Kesys, Day 4 12:25-1:15 Pum
- Reference file: following-an-algorithm-k-what-is-an-angorithm.bib

School Planning Goals and Inclusion

- What is expected: I can follow steps (in an algorithm) to complete a task (K-1.CT.6) | I understand that tasks can be described in different ways (K-1.CT.5) | I can tell which steps are repeated in a task (K-1.CT.8) | I can make a plan with steps (K-1.CT.10)
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
