School Planning Goals and Inclusion

- What is expected: K-1.IC.1: I can identify how books can be read and created both with and without computing devices. | | K-1.CY.2: I can explain how my accounts (chromebook, Book Creator Library, etc.) are kept secure. | | K-1.CY.4: I can decode words using a simple code.
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
