School Planning Goals and Inclusion

- What is expected: K-1.DL.1: Use digital tools to create and communicate | K-1.IC.6: With teacher support, identify different ways people interact with computers and computing devices | K-1.DL.2: With teacher guidance, navigate and use common features of digital tools and environments | K-1.IC.3: Identify computing technologies in the classroom, home, and community.
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
