School Planning Goals and Inclusion

- What is expected: I can discuss how people communicate with and without technology (K-1.IC.1) | I can explain the “rules” that help people share information over long distances (K-1.NSD.4) | I can use SeeSaw to share what I learned with others (K-1.DL.2) | I can create an image to show what I learned on SeeSaw (K-1.DL.4)
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
