School Planning Goals and Inclusion

- What is expected: I can identify jobs that use technology (K-1.IC.7) | I can talk about how technology is helpful to different jobs (K.1C.7) | I can find computing technology used in different places (classroom, home, and community). (K-1.IC.3)
- What we achieved: No direct transcript match is attached yet. Treat this lesson as workbook-backed and enrich it when a matching classroom transcript is available.
- What needs improvement: stronger proof, cleaner assessment notes, and tighter lesson artifacts.
- How to improve: add transcript proof, one saved artifact, and clearer success criteria.
- Inclusion focus: use visual modeling, chunked directions, predictable routines, and flexible participation roles.
