

Lesson 1: Brainstorm and Plan

Pick a topic. Check it. Plan it.

**AI helps us think.
We stay in charge.**

Guide

Today's Mission

By the end of Lesson 1, I will have:

- ▶ one topic I care about
- ▶ one reason it connects to computer science
- ▶ one project type
- ▶ a guide with 3 to 5 parts, sections, or questions

Topic

CS Link

Guide

Our AI Rules

- ▶ Do not type names or private information.
- ▶ AI is a helper, not the boss.
- ▶ AI can be wrong.
- ▶ We choose what to keep or change.
- ▶ The teacher can see class AI work.

Keep school rules
in the chat.

Read the answer.
Think. Then decide.

Never copy with-
out checking.

Use the Right Tool

Idea Generator

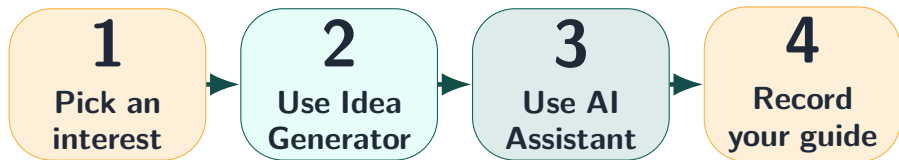

- ▶ Start here
- ▶ Get possible topic ideas
- ▶ Connect your interests to CS

AI Assistant

- ▶ Use after you have an idea
- ▶ Check the CS connection
- ▶ Make the topic smaller
- ▶ Build a guide with 3 to 5 parts

Idea Generator first. AI Assistant second.

Our Workflow

Remember

You do not need a finished project today. You need a strong topic and a strong guide.

Prompt Cards: Idea Generator

Use Idea Generator for topic ideas

- ▶ [Copy](#) My interest is _____. Give me 4 computer-science project ideas for grades 4-5.
- ▶ [Copy](#) Help me turn my interest in _____ into a computer-science project topic.

Pick 1 or 2 ideas worth checking.

Prompt Cards: AI Assistant

Use AI Assistant for checking and planning

- ▶ **Copy** My topic is _____. Is this really connected to computer science? Explain how.
- ▶ **Copy** My topic is _____. Help me make it smaller and clearer for a short project.
- ▶ **Copy** My topic is _____. Give me a high-level guide with 3 to 5 parts, sections, or questions I could use for my project.

Choose a guide you agree with.

What Not To Do

Do

- ▶ read the answer
- ▶ check if it fits your goal
- ▶ pick the parts you agree with
- ▶ ask for a better version if needed

Do Not

- ▶ just copy the whole answer
- ▶ accept the first answer right away
- ▶ keep a topic that is too long/complex
- ▶ choose a topic with no CS connection

What Goes on Your Planning Sheet?

- ▶ My topic:
- ▶ My CS connection:
- ▶ My project type:
- ▶ My guide with 3 to 5 parts, sections, or questions:

Optional AI helper (click Copy)

Copy My topic is _____. My interest is _____. Help me fill out my planning sheet in the right format.

Teacher check

Before Lesson 2, your topic and guide must be approved.

If You Get Stuck

Troubleshoot in order

1. Name the problem.
2. Try one small change.
3. Use the matching prompt.
4. Read the answer. Keep only what helps you.
5. Ask your partner or teacher.

Problem key

- ▶ No topic yet
- ▶ Too big
- ▶ Too simple
- ▶ Don't like ideas
- ▶ Not sure it is CS

If You Get Stuck: Copy-Paste Prompts

Click Copy, then paste

- ▶ **No topic yet** **Copy** Interests → topic ideas **Copy** Questions → topic ideas

Example: *music* → a quiz that matches songs to moods

- ▶ **Too big** **Copy** My topic is _____. Help me make it smaller.

Example: *animals* → one animal + one question + one audience

- ▶ **Too simple** **Copy** My topic is _____. Help me make it more interesting.

Example: *soccer* → compare positions + make a matching game

- ▶ **Don't like ideas** **Copy** I do not like these ideas: _____. Give new ones.

- ▶ **Not sure it is CS** **Copy** My topic is _____. Is this connected to CS?

Ready for Lesson 2?

I have one topic.

I can explain the CS connection.

I have a guide with 3 to 5 parts.

Quick share

My topic is... My project will be... My guide will help me by...
