

Design Operating Systems — Day 1: Nearpod Operating Systems

Mission Board: Learn, Test, Improve.

Intermediate learners benefit from a clear mission board, visible debugging routine, and fewer hidden setup steps.

Learn

Test

Improve

Mission Brief

Your mission today

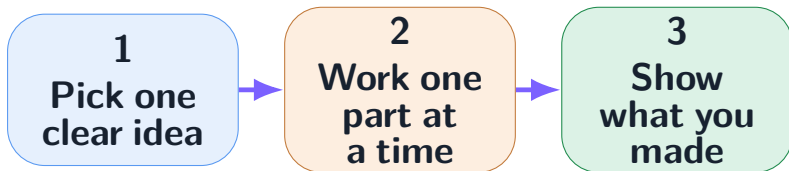

- I can define what an operating system is

- ▶ - I can define what an operating system is
- ▶ - I can identify the most common operating systems
- ▶ - I can explain the functions of an operating system

Intermediate learners
who can handle
complex digital
tasks when setup

Day 1 '1:15-2:10'
Baris, Day 2 '1:15-2:10'
Fowler, Day 3 '1:15-
2:10' Schrank, Day
4 '1:15-2:10' Autore

Mission Flow

Tools and setup

- ▶ Begin by naming the lesson purpose and the success condition
- ▶ Model the first step before independent or partner work starts
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset

Debug and Get Unstuck

Use this order

1. Re-check the goal.
2. Re-check the current step.
3. Test one small change.
4. Ask one specific question.

Hidden assumptions

in the directions
can make support

requests pile up
Directions can
feel hidden

Students may not
know they are done

Proof of Learning

I finished an important part

I can explain one choice

I can show my work

Before you leave

Save it, share it, explain it, or demonstrate it.
