Mission Flow

Tools and setup

- ▶ Begin by naming the lesson purpose and the success condition
- ▶ Model the first step before independent or partner work starts
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset

Debug and Get Unstuck

Use this order

1. Re-check the goal.
2. Re-check the current step.
3. Test one small change.
4. Ask one specific question.

Device-to-robot

pairing and setup can

split attention quickly

One partner may take

over unless roles are

named and revisited

Students may not

know they are done

Proof of Learning

I finished an important part

I can explain one choice

I can show my work

Before you leave

Save it, share it, explain it, or demonstrate it.
