

Introducing Choice Boards

Look. Try. Share.

Big visuals, one direction at a time, and lots of chances to point, move, and show.

What Are We Doing Today?

Our Goal

Students will be able to define a choice board and explain its purpose in learning

Success looks like this:

- ▶ Students will be able to define a choice board and explain its purpose in learning
- ▶ Students will be able to describe the function of a QR code and demonstrate how to scan and access information using a QR code.
- ▶ I can show my learning.

Kindergarten
Early elementary

learners who

benefit from

visual modeling,

predictable routines,

4 '12:25-1:15' Pum

What You Need

READY

Get set

- ▶ Begin by naming the lesson purpose and the success condition
- ▶ Model the first step before independent or partner work starts
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset

TEAM

How we work

- ▶ Look
- ▶ Listen
- ▶ Try
- ▶ Help without taking over

**Ready body
ready brain**

Our Big Plan

Keep your eyes on the color

Red means begin. Yellow means work. Green means show.

If You Get Stuck

Our Help Ladder

Try the next small support before you freeze.

1. Look at the slide.
2. Look at your checklist.
3. Ask your partner.
4. Ask the teacher one clear question.

Watch for this:

- ▶ Hidden assumptions in the directions can make support requests pile up
- ▶ Directions can feel hidden
- ▶ Students may not know they are done

Look at
the slide

Check your
list

Ask your
partner

Ask the
teacher

Before We Finish

I finished an important part

I can explain one choice

I can show my work

Exit move

Save it, hold it up, point to it, or explain it.
