

Teaching Indi to make slight turns

Look. Try. Share.

Big visuals, one direction at a time, and lots of chances to point, move, and show.

1

Pick a plan

2

Make it

3

Show it

What Are We Doing Today?

Our Goal

I can follow the steps.

Success looks like this:

- ▶ I can follow the steps.
- ▶ I can make or improve something.
- ▶ I can show my learning.

Kindergarten
~~Early elementary~~

learners who

benefit from

visual modeling,

predictable routines,

Justinger, Day 2

'12:25-1:15' Kesys, Day

4 '12:25-1:15' Pum

What You Need

READY

Get set

- ▶ Begin by naming the lesson purpose and the success condition
- ▶ Model the first step before independent or partner work starts
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset

TEAM

How we work

- ▶ Look
- ▶ Listen
- ▶ Try
- ▶ Help without taking over

**Ready body
ready brain**

Our Big Plan

1

Assign partner roles before materials come out

2

Model one test-rev

Us

Keep your eyes on the color

Red means begin. Yellow means work. Green means show.

If You Get Stuck

Our Help Ladder

Try the next small support before you freeze.

1. Look at the slide.
2. Look at your checklist.
3. Ask your partner.
4. Ask the teacher one clear question.

Watch for this:

- ▶ Device-to-robot pairing and setup can split attention quickly
- ▶ One partner may take over unless roles are named and revisited
- ▶ Students may not know they are done

Look at
the slide

Check your
list

Ask your
partner

Ask the
teacher

Before We Finish

I finished an important part

I can explain one choice

I can show my work

Exit move

Save it, hold it up, point to it, or explain it.
