

You're An Engineer

Look. Try. Share.

Big visuals, one direction at a time, and lots of chances to point, move, and show.

Make it

3

Show it

What Are We Doing Today?

Our Goal

I can describe what an engineer does

Success looks like this:

- ▶ I can describe what an engineer does
- ▶ I can identify a problem and come up with an idea to solve the problem (K-1.CT.4)
- ▶ I can explain the steps used to solve a problem (Engineer & Design Process)

Kindergarten
Early elementary

learners who

benefit from

visual modeling,

predictable routines,

What You Need

READY

Get set

- ▶ Begin by naming the lesson purpose and the success condition
- ▶ Model the first step before independent or partner work starts
- ▶ Pause once mid-lesson for a quick debug, reflection, or reset

TEAM

How we work

- ▶ Look
- ▶ Listen
- ▶ Try
- ▶ Help without taking over

**Ready body
ready brain**

Our Big Plan

Keep your eyes on the color

Red means begin. Yellow means work. Green means show.

If You Get Stuck

Our Help Ladder

Try the next small support before you freeze.

1. Look at the slide.
2. Look at your checklist.
3. Ask your partner.
4. Ask the teacher one clear question.

Watch for this:

- ▶ Hidden assumptions in the directions can make support requests pile up
- ▶ Directions can feel hidden
- ▶ Students may not know they are done

the slide

Check your
list

Ask your
partner

Ask the
teacher

Before We Finish

I finished an important part

I can explain one choice

I can show my work

Exit move

Save it, hold it up, point to it, or explain it.
